

I Miss You

When you are gone I'm alone
Too scared to pick up the phone
Wishing you would come home
Crying ever since you left me alone
I miss you

You stayed with me for 6 months
Now you been gone for 6 months
I thought about you everyday out of those months
Can't help but cry
I miss you

The day you left me my mom died
Had a lot of pain
You could see it in my eyes
No one was there to see me cry
I miss you

You left me in the cold
I had no one to hold
You broke my heart and split my soul
Wished you would have stayed and made me whole
I miss you

Now it's like any other day
All I do is get down on my knees and pray
That you would come back to stay
Now that you are back
I know GOD is who brought you back
If you decide to stay this time I want to say
I miss you
